

Roger Steers

Roger Steers is Executive Principal at RJC Engineers, one of Canada's leading engineering firms specializing in structural engineering, building science, restoration, and structural glass design. An engineer by training, Roger holds both undergraduate and master's degrees in engineering from the University of Alberta and has spent more than three decades helping lead complex projects, teams, and organizations across Western Canada.

At RJC, Roger provides executive leadership in the areas of risk management, technical services, health and safety, and corporate governance. He is passionate about strong leadership, effective governance, and creating environments where people and organizations can succeed.

In 2020, he was honoured as the Surrey Board of Trade's Business Person of the Year.

Roger has been actively involved with the Surrey & White Rock Board of Trade since 2021, serving as a Director and contributing to several governance initiatives.

As Chair of the Surrey & White Rock Board of Trade, Roger is committed to advancing advocacy, strengthening member value, and supporting the continued growth and prosperity of Surrey and White Rock's business communities.
